

RED interchange API - Setup in RED

In order to use the RED interchange API you will need an account in RED. Please contact us for an offer and help.

If you have a RED account open RED in your web browser <https://redclient.redmedical.de/redclient/index.html> and log in using your user credentials. If you log in on a machine for the first time you will be prompted to install **RED commander**. RED commander is a local application enabling RED to access the local resources and to execute the FHIR server. Download and install the RED commander using the installation wizard. [RED commander - Technische Informationen | RED commander - Installation](#)

The FHIR interface is disable by default. If it is to be used the FHIR server must be enabled for each machine. Log in as an administrator user and navigate to management of terminals (search for **#b arbeits** and select **Arbeitsplätze**). Select your current terminal (marked by **ICH**) and navigate down to the **Schnittstelle FHIR** section.

The screenshot shows the RED medical web interface with the following details:

- Header:** # RED medical, Suche nach Personen und Funktionen, Menu, Dr. med. Annie ... (362364901), Administration, various icons.
- Navigation:** Homepage, Arbeitsplätze x.
- Section:** Arbeitsplätze
- Sub-section:** KARTENLESER UND TELEMATIK-INFRASTRUKTUR
- Data:** Alex Macbook | ICH, Arbeitsplatz freigegeben. Includes links for Referenz, Authentifizierung, TI-Konnektor ändern, BCS-Kartenleser hinzufügen, TI-Kartenleser hinzufügen, BasicAuth auf alle übertragen, Chipkarten-Simulator, ORGA6100-014200000110BF KT, Scanner hinzufügen, Scanner-Ordner, GDT, EKG Spacelabs, LABORDATENÜBERNAHME (LDT), and SPRINT.
- Large Overlay:** A large circular icon labeled "SCHNITTSTELLE EHEALTH-TEC" is overlaid on the interface list.

RED shows a list of all FHIR interfaces defined for this terminal. A FHIR interface may be active or paused. Active FHIR interfaces are marked by **Aktiv**. Click on **FHIR-Schnittstelle hinzufügen** to create a new FHIR interface or **FHIR-Schnittstelle bearbeiten** to modify an existing definition.

The screenshot shows the RED medical software interface. At the top, there is a navigation bar with the RED medical logo, a search bar, and various menu items. Below the navigation bar, the main content area is titled "Arbeitsplätze". A sub-section titled "FHIR-SCHNITTSTELLE" is displayed. It includes fields for "Schnittstelle verwenden" (with "Ja" selected), "Bezeichnung" (set to "FHIR-Schnittstelle"), "Typ der Schnittstelle" (set to "FHIR-Schnittstelle" which is highlighted in blue), "Sichere Verbindung" (with "Ja" selected), "Anwendungsadresse" (set to "/Applications/RED awst.app"), and "Erweiterte Optionen" (an empty input field). At the bottom right of the form are two buttons: "SPEICHERN" (orange) and "ABBRECHEN".

Schnittstelle verwenden: allows to activate and deactivate the interface (e.g. for testing purposes)

Bezeichnung: name of this interface

Typ der Schnittstelle: for RED interchange API select the option “FHIR-Schnittstelle”

Sichere Verbindung: if set to “Nein” a http-connection is used, if set to “Ja”, https is used

Anwendungsadresse: path to the application that is to be opened by RED

Erweiterte Optionen: options string to send to the application when opened (not required)

Save the setting with the orange **Speichern** button. The interface is set up and FHIR server will be started automatically during the next login.

For testing purposes on a local environment the interface can be reached at: <http://localhost:29221/{tenantID}>. The tenantID is the internal ID of the RED instance. You will find your tenant ID by clicking on the user name (next to the house icon) in the top panel. The tenant ID is shown as **ID**.

The screenshot shows the RED medical software interface. The top navigation bar includes the RED medical logo, a search bar, and a menu. Below the navigation bar, the main dashboard is visible. On the left, there is a sidebar with links like "MEINE LISTE", "TAGESLISTE 24.06.2022", "KENNZAHLEN", and "VERSICHERUNGEN". The central part of the screen displays patient data: "Patienten: 1 | gesetzliche Episoden 1", "Anzahl Episoden: Gesetzlich 170", and "Zeitprofile 11.85 Stunden | Leistungen Tagesprofil 8.67 | Quartalsprofil 3.18". At the top right, there is a user profile section with a "Benutzer" dropdown showing "demo" and "Rechnungsabrechnung". A large circular callout highlights the "demo" entry in the dropdown. The bottom right corner shows a user ID: "alexanderwilms_7788".
